SYDNEY TRAMWAY MUSEUM

Security Policy

Sydney Tramway Museum (STM) operates Museum and tourist tram services, using heritage tram rolling stock, over a 3.3 kilometre section of the tramline between Sutherland and the Royal National Park, providing a tourist attraction for people visiting the Sutherland district. STM is operated by its members on a voluntary, not-for-profit basis.

STM aims to provide safe and secure passenger tram services and safety and security in the STM Museum grounds and buildings and recognises that security is a key component of this aim. In order to improve security and reduce the risk from crimes against the person and against property STM has developed a security plan (STM 6020) in consultation with members, the local community, the Sutherland Shire council and local emergency services. The Board of Directors is responsible for ensuring that the security plan and associated security programs are implemented.

Adopted by the Board of the South Pacific Electric Railway Co-Operative Society Limited.
